The Heating and Ventilating Magazine

VOL. XII. No. 1

Contents for January, 1915

	Page
Kitchen Ventilation for a Modern Hotel Equipment of the Hotel Biltmore, New York.	13
Systems for the Engineer and Contractor, III..... *Thos. Barwick* Practical Suggestions, with Forms, for Increasing Business Efficiency.	18
The Air We Breathe—A Study of Temperature, Humidity and Dust Content ..... *Thos. Hubbard, M.D.*	22
Electric Heating in Seattle	25
District Heating ..... *S. Morgan Bushnell* and *Fred B. Orr* 1—Origin and Development of District Heating.	27
The Consulting Engineer Does It Take a Greater Amount of Heat Initially to Heat with Live Steam Than with Exhaust Steam?	39
American Society of Heating and Ventilating Engineers Programme for Annual Meeting. New Members. Lecture Before New York Chapter on "Heating the Skyscraper and Its Problems." Illinois Chapter. Massachusetts Chapter.	44
The Weather for November, 1914 New York, Boston, Pittsburgh, Chicago and St. Louis.	46
Horizontal Air Currents Advocated for Room Ventilation	48
Correspondence Lift Fittings and Lift Pockets in Vacuum Steam Heating Work. Radiation as Figured by Different Rules.	48
Work of the Heating and Ventilating Division of Cleveland for 1914	50
The Needs of the Heating Profession	51
N. A. S. O. Standard First Aid Jar	52
Plans of International Engineering Congress	53
Ownership of the New York Steam Company	53
Bibliography on Air Conditioning	53
Current Heating and Ventilating Literature	53
Test of Vacuum Cleaning Plant Harvard Freshman Dormitories.	60
Central Heating Trade Notes	61

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**

Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 2

Contents for February, 1915

Page

Heat Loss Test in a 200-Room Building..... *C. H. Avery* 17
Reliability of Well-Known Formulas Borne Out in Experiments at University College, London.

Air Conditioning in a Moving Picture Laboratory 20
Equipment of Plant of the Lubin Manufacturing Company.

A Study of the Heating and Ventilating Conditions in a Large Office Building..... *C.-E. A. Winslow and G. F. Maglott* 26

District Heating..... *S. Morgan Bushness and Fred B. Orr* 32
II—Metering.

American Society of Heating and Ventilating Engineers..... 39
Report of Twenty-first Annual Meeting.
Inspection Trip to Laboratories of New York State Commission on Ventilation.
Illinois Chapter on Kitchen Ventilation.

Legal Decisions..... 49
Repairs on Heating Plant—Evidence as to Contract.
Finding That Heat Regulator Worked Properly.

Praise for The Heating and Ventilating Magazine Weather Charts..... 49

The Weather for December, 1914..... 50
New York, Boston, Pittsburgh, Chicago and St. Louis.

The European War as a Huge Fresh Air Experiment 52

Further Discussion of Standard Boiler Specifications 52

Discussion of Radiation Formulas..... 52

Inexact Statements in Manufacturers' Catalogues 53

Testing Radiators in Temperatures Above Zero..... 55

New Publications..... 56
Analysis of Coal with Phenol as a Solvent.
Tests on Heating and Ventilating.
Scientific Management.
Ventilation of Farm Buildings.

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**

Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 3

Contents for March, 1915

	Page
The Relation of the Architect and the Engineer. I..... *D. D. Kimball*	13
The Experimental Plant of the New York State Ventilation Commission.	18
The Recirculation of Air in a Schoolroom in Minneapolis. *Frederick Bass*	27
An Analysis of Modern Ventilation Theories....*J. M. W. Kitchen, M.D.*	30
Heat Transmission from Radiators under Different Temperatures..... *Charles A. Fuller*	32
An Experiment with Ozone as an Adjunct to Artificial Ventilation.... *A. M. Feldman*	35
District Heating.....*S. Morgan Bushnell and Fred. B. Orr* III—Velocity Steam Meters and Water Meters.	36
Further Developments of Electric Heating in Seattle.....	42
Tests of Open Air Schoolrooms	43
Space Requirements for Heating and Ventilating Plants.....	43
The Consulting Engineer..... 42—Time Element in Heating a Building. 43—Loss in Pressure in Rectangular Air Ducts.	45
Engine Condensation, with Particular Reference to Exhaust Steam Heating ....*Perry West*	46
Legal Decisions ..... Court of Appeals on Multivane Fan Case. Heating Plant for Schoolhouse—Enforcement of Contract with School District.	48
American Society of Heating and Ventilating Engineers ..... New York Chapter Takes Up "Measurement of Air Flow." Illinois Chapter on "Trouble Jobs." Massachusetts Chapter.	49
National District Heating Association ..... Plans for Annual Convention.	51
The Weather for January, 1915 ..... New York, Boston, Pittsburgh, Chicago and St. Louis.	52
National Association of Master Steam and Hot Water Fitters..... Date Fixed for Annual Convention. Wisconsin State Association.	54
American Society of Mechanical Engineers..... New Draft Completed of Mechanical Engineers' Boiler Code.	54
National Warm Air Heating and Ventilating Association.....	54
Institution (British) of Heating and Ventilating Engineers.....	54
Correspondence..... Operating Heating Systems Under a Partial Vacuum.	55
Current Heating and Ventilating Literature.....	55
New York Steam Company Under New Management	61

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**

Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 4

Contents for April, 1915

Page

The Edison Phonograph Shop.....*C. E. Daniel* 13
Heating and Ventilation at Minimum Cost, with Ventilation of Sound-Proof Booths.

A Factory Building Equipped With Outside Air Ducts..... 19
Plant of the Excelsior Motor & Manufacturing Company, Chicago.

The Relation of the Architect and the Engineer. II.....*D. D. Kimball* 26

The Performance and Selection of Centrifugal Fans.....*Frank L. Busey* 31
Data and Notes Applying to Both Steel Plate and Multivane Types.

District Heating.....*S. Morgan Bushnell and Fred B. Orr* 37
IV—Condensation Meters and General Conclusions.

Recirculation of Air for Schools..... 43

Horizontal Air Currents in Room Ventilation..... 45

Cause of Excessive Humidity in Gas Heated Rooms..... 46

Further Discussion of "Engine Condensation"..... 46

American Society of Heating and Ventilating Engineers..... 46
Summer Meeting to Be Held in San Francisco.
Heating Engineers to Issue Journal.
Classified List of Heating Pamphlets.
New Members.
New York Chapter Hears Lecture on "Wind Leakage."
Illinois Chapter Discusses Boiler Room Practice in Europe and America.

National Association of Master Steam and Hot Water Fitters..... 49
Newark Association.

Bill to License Master Steam Fitters in New York State..... 49

Massachusetts Bill to License Steam Fitters..... 49

New Jersey Bill to Separate Contracts..... 50

A New Friction Head Slide Rule for Heating Work and Power Piping... 50

Current Heating and Ventilating Literature..... 51

The Weather for February, 1915..... 52
New York, Boston, Pittsburgh, Chicago and St. Louis.

Test of Economy and Efficiency of Automatic Temperature Regulation in Office Building.....*F. A. Boos* 54

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**

Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 5

Contents for May, 1915

Page

Heating and Ventilating Plant for the Missouri State Capitol 13
Reversible System of Air Supply for House and Senate Chambers.

Difficulty of Measuring Heat ..... *A. H. Barker and F. C. S. Brundal* 21
With Special Reference to Radiated and Convected Heat.

How Radiant Heat from Gas Radiators Is Determined .. *George S. Barrows* 24

The Work of the Chicago Ventilation Commission 26

Performance and Selection of Centrifugal Fans ..... *Frank L. Busey* 31
II—Fan Selection.

District Heating ..... *S. Morgan Bushnell and Fred. B. Orr* 36
Relation Between Heat Load and Electric Load in Buildings and Sale of Heat.

National District Heating Association 43
Programme for Seventh Annual Convention.

The Consulting Engineer 44
44—Cooling Coils for Lowering Temperature of Condensation.
45—Significance of Different Pressure Terms.

Legal Decisions 45
Breach of Contract for Installing Steam Heating Apparatus.—Damages Recoverable.
Contract for Installing Heating Plant—Claim for Extras.

Correspondence 46
Test of Economy and Efficiency of Automatic Temperature Regulation.
Relation of the Architect to the Engineer.
Variation of Temperature at Different Room Levels in Furnace Testing.

Scheme for Ventilating Sleeping Car Berths 48

Current Heating and Ventilating Literature 48

Proposed Rules in New York State for Removal of Dust, Fumes and Gases. 49

A Method for Overcoming the Use of Sidewalk Gratings in Subway Ventilation 49

Separate Contract Law Passed in New Jersey 49

The Weather for March, 1915 50
New York, Boston, Pittsburgh, Chicago and St. Louis.

United States Government to Publish Mid-Day Humidity Readings 52

A New Industrial Commission Bill for New York State 52

American Society of Heating and Ventilating Engineers 52
New York Chapter Elects Officers.
Illinois Chapter.
Massachusetts Chapter.

National Association of Master Steam and Hot Water Fitters 53
Michigan State Association.
New York City Association.
Detroit (Mich.) Association.
Pennsylvania State Association.

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**

Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 6

Contents for June, 1915

Page

Heating and Ventilating an Office Building by Electricity...*C. F. Herington* 13
Novel Equipment for the Hydraulic Power Co.'s Plant at Niagara Falls.

The Cost of Schoolhouse Construction.....*Edward C. Baldwin* 22
With a Proposed Unit Based on Cubical Contents.

District Heating.....*S. Morgan Bushnell and Fred B. Orr* 28
Heating and Power Costs.

The Difficulty of Measuring Heat.....*A. H. Barker and F. C. S. Brendal* 33
II. With Special Reference to Radiated and Convected Heat.

An Organization to Classify Technical Literature..... 35

Organization of New Industrial Board in New York State..... 35

Architects Must Be Licensed in Illinois..... 35

National District Heating Association..... 37
Proceedings of Seventh Annual Convention.

The Weather for April, 1915..... 48
New York, Boston, Pittsburgh, Chicago and St. Louis.

The Consulting Engineer..... 50
46—Testing House Heating Boilers and Checking Manufacturers' Ratings.

Business Organization in Schoolhouse Construction..... 51

Improvement in Building Operations..... 51

American Society of Heating and Ventilating Engineers..... 52
New York Chapter Holds Annual Dinner.
Illinois Chapter Hears Report of Air Washer Committee.
Massachusetts Chapter Closes Its Season.
New Members.

National Association of Master Steam and Hot Water Fitters..... 53
Program for Twenty-seventh Annual Convention.
New York State Association.
Pennsylvania State Association.

Current Heating and Ventilating Literature..... 55

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**
Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 7

Contents for July, 1915

Page

Operating Data in Connection With Federal Buildings Under the Control of the Treasury Department..... *Nelson S. Thompson* 13

Space Requirements for Boilers of Various Types in School Buildings *T. W. Reynolds* 17

The Establishment of a Standard for Transmission Losses from Buildings of All Constructions ..... *Reginald Pelham Bolton* 19

Studies in Air Cleanliness. *George C. Whipple and Melville C. Whipple* 23
Tests to Determine Quality of City Air with Regard to Suspended Impurities and Distribution of Impurities.

Heating Data for Varying Conditions..... *James A. Donnelly* 28

National Association of Master Steam and Hot Water Fitters..... 35
Proceedings of Twenty-Seventh Annual Convention.

The Consulting Engineer..... 41
47—Air Cooling with Water.

Current Heating and Ventilating Literature 41

Legal Decisions 42
Modification of Contract by Correspondence and Payment.
No Liability for Negligence of Independent Contractor.
Covenant to Heat Premises—Slight Breach—Notice to Landlord.
No Liability for Negligence of Independent Contractor.

Features of Nineteen Typical Heating Franchises 43

New Rules Promulgated by the New York State Industrial Commission 45

National Warm Air Heating and Ventilating Association 46

Correspondence 51
Figuring Size of Cooling Coils.

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**
Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 8

Contents for August, 1915

Page

Subway Ventilation Schemes 13

Operating Data in Connection with Federal Buildings Under Control of Treasury Department II ..... *Nelson S. Thompson* 17

Records for Two Factory Buildings and a Y. M. C. A. Building ..... *S. R. Lewis* 20

A Pressure Survey Study Constituting a Report on the Comparative Use of Exhaust and Live Steam for Heating ..... *C. C. Wilcox* 23

Heat Emitting Capacity of Radiation ..... *Chas. D. Allan* 32

Pulverized Coal for Steam Making 34

Consulting Engineer 39
48—Heat Lost from Underground Steam Pipes.
49—Advantages of Down-Feed Hot Water Heating.

Legislation Affecting the Heating Industry 40

National Campaign on Overhead Charges 43

A Proposal to Award Contracts to the "Average" Bidder 43

The Motto of the Master Steam Fitters' Association 44

Progress of Standard Flange Schedule 44

Master Plumbers' Annual Convention 46

Summer Meeting of the British Heating Engineers 47

Correspondence 48
The Heating of the Rupert "Electric" High School.
Efficiency of House Heating Boilers.

Relation of Windows and Ventilation in Factory Buildings 49

Report on Factory Exhaust Systems in Illinois 49

"Air Return Systems" as a Standard Designation 50

Current Heating and Ventilating Literature 50

Organization of Carrier Engineering Corporation 51

The Unsteady Water Line in Heating Boilers 60

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**

Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 9

Contents for September, 1915

Page

A Drill Hall That Requires 23,000 Sq. Ft. of Direct Radiation. *George B. Rice* 14
Problems Involved in the Equipment of the Armory Building at the University of Illinois.

The Measure of Comfort in Factories.....*James A. Seager* 24
Construction and Use of the Katathermometer.

Dust and Bacteria Content of City Air.....*Melvelle C. Whipple* 27
With Special Reference to Sub-Basements, Fresh Air School Rooms, Street Cars and Open Spaces.

Three Methods of Measuring Radiant Heat from Gas Fires..... 33

Radiator Traps and Test Data.....*L. M. Arkley, M.Sc.* 37

The Consulting Engineer..... 41
51—Data on Overhead Steam Heating.
52—Figuring Tank Sizes.

Air Permeability of Building Materials..... 44

An Architect on Modern Ventilation Ideas..... 45

The Electric Fan as an Adjunct to the Heating System..... 46

Suggestions for Installing and Testing Factory Exhaust Systems..... 47

American Society of Heating and Ventilating Engineers..... 48
Arrangements for Semi-Annual Meeting.
Plans for Annual Meeting.

National District Heating Association..... 48
Plans for Future Development.

Correspondence..... 49
Heat Emission from Radiators.

Panama-Pacific International Exposition..... 50
Exhibit of the Keuffel & Esser Co.
Exhibit of the United Electric Co.

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**
Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 10

Contents for October, 1915

Page

A Combined Heating and Sprinkler System for a Factory Building ..... *Charles A. Hubbard* 13
Plant of Wheelock, Lovejoy & Co., Cambridge, Mass.

Smoke Abatement in House Heating Boilers..... *Martin A. Rooney, M. E.* 17

Definite Recommendations for Improving the Status of the Heating Engineer 21

Apparatus for the Study of Heat Radiation..... *James D. Hoffman* 28

American Society of Heating and Ventilating Engineers..... 33
Proceedings of Semi-Annual Meeting.
New York Chapter.
Illinois Chapter.

British Heating Engineers..... 40

International Engineering Congress..... 40

National District Heating Association..... 41
Arrangements for Next Annual Meeting.

Varying Views on the Proposed Standard Title for Return Line Systems.. 41

A Heating Engineer on Subway Ventilation..... 42

The Consulting Engineer..... 44
52—Overcoming Back Pressure in Heating Systems.

Book Reviews..... 46
District Heating.
Power, Heating and Ventilation.

Panama-Pacific International Exposition..... 54
7—American Radiator Company.
8—National Tube Company.

Current Heating and Ventilating Literature..... 56

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**
Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 11

Contents for November, 1915

Page

Hot Water Heating on a Large Scale 13
Central Heating Plant for the State School of Agriculture, Farmingdale, L. I.

New Chart and Tables Based on Square Feet of Radiation..*T. W. Reynolds* 22
For Use in Determining Sizes of Steam Supply Mains and Branches for Low Pressure Steam Heating System.

New Observations on Ventilation 25

Can We Locate the Neutral Zone in Heated Buildings?....*J. J. Blackmore* 27

The Business Outlook.....*Frank M. Huston* 33

The Consulting Engineer 35
53—Cause of Drop in Pressure in Pipes.

The American Society of Heating and Ventilating Engineers..... 37
Opening Meeting of New York Chapter.
Illinois Chapter Elects Officers.
New Officers Nominated.
The Society's Educational Committee.

National District Heating Association..... 42
Convention Proceedings for 1915.
The Association's New Bulletin.

Plain Talk on Engineering Societies..... 43

Formula and Rules for Warm Air Heating..... 45

Effect of Wall Paper, Etc., on Room Ventilation..... 46

Saving Fuel in Heating a House..... 47
With Results of a Test in a Connecticut Residence.

A Case of "Natural" Heating..... 49

Correspondence 49
Determining Butt and Lap-Welded Pipe.

Mechanical Features of the Panama-Pacific International Exposition.
Guy L. Bayley 50

The Coming Use of Bituminous Coal..... 51

University Laboratories May Assist Business..... 52

Cleveland Contractors' Stand Against Free Engineering..... 52

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**
Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York

The Heating and Ventilating Magazine

VOL. XII. No. 12

Contents for December, 1915

Page

Notes on the Use of Heating Coils.....*T. W. Reynolds* 17
With Examples of Proper and Improper Design.

New Radiation Coefficients.....*Samuel Naylor* 22
Based on the Tests Made by the Heating Department of the University of London.

A Large Combination Steam and Forced Hot Water Heating Plant..... 26
New York State Reformatory for Women.

The Consulting Engineer..... 37
54—Simple Remedy for Noisy Heating System.
55—Meeting Indoor Humidity Requirements.

Legal Decisions..... 39
When Meter Rate for Steam Heat Is Preferable to Flat Rate.
Breach of Warranty—Counterclaim.
Safe Place to Work.
Water Heater Patents.
Owner's Liability to Contractor for Delays.

Installing Mechanical Equipment With Limited Facilities..... 40

American Society of Heating and Ventilating Engineers..... 42
New York Chapter Given Data on Operating Costs.
Illinois Chapter Discusses Power Plant Development.
Massachusetts Chapter Hears Talk on Vacuum Heating.

Institution (British) of Heating and Ventilating Engineers..... 44

Amount of Humidity Obtained With Air Moisteners..... 44

An Electric Heating Experiment in Spokane..... 45

The Heat Balance of the Human Body..... 45

The Importance of Publicity for the Engineer..... 46

Comparison of Various Heat Insulating Materials..... 46

Heating Values of Different Fuels..... 47

The Rolling Ball Steam Trap..... 47

The Weather for October, 1915..... 58
New York, Boston, Pittsburgh, Chicago and St. Louis.

Panama-Pacific International Exposition Exhibits..... 60
10—Armstrong Cork Company.

YEARLY SUBSCRIPTION, $1.00 **SINGLE COPIES, 10 CENTS**
Published monthly by the Heating and Ventilating Magazine Co.
1123 Broadway, New York
